

Chief, Plans & Policy Staff, ORE

8 March 1949

Deputy Assistant Director, ORE

Teletype System

1. Please arrange a conference for the purpose of discussing certain proposals and ideas concerning installation and use of additional teletype machines under the cognizance of the Current Group, ORE.

25X1A

2. Several problems are involved. It would be best for you to discuss these problems directly with [REDACTED] Chief of Current Group, prior to setting up the conference.

25X1A

3. My tentative thought is that the conference should be attended by yourself, [REDACTED] and [REDACTED] of OSO.

25X1A

4. In addition to the rather important procedural problems involved, including the question of evaluating certain long-range proposals which have been made, there are several problems of space, personnel, etc., involved. It is requested, therefore, that you arrange this conference within the next two weeks.
